Projects

E-Commerce

The E-commerce app's front end offers a user-friendly interface with features like product listings, search, and checkout. It emphasizes intuitive design, responsive layouts, and personalized recommendations for a seamless shopping experience.

News App

The news app front end offers a user-friendly interface for seamless browsing of current articles, featuring intuitive navigation and visually engaging layouts. Categorized sections and responsive design enhance accessibility and user experience.

Expense Manager

The expense manager app's front end delivers a user-friendly interface for seamless expense tracking, featuring intuitive design and insightful budget visualizations. It ensures efficient financial management with easy input and responsive layouts for accessibility.

CRUD Application

A frontend CRUD application enables users to effortlessly Create, Read, Update, and Delete data through a user-friendly interface, enhancing data management efficiency. It empowers seamless interactions with databases, offering a streamlined experience for manipulating information in web applications. The application ensures smooth data operations, enhancing overall usability.

Declaration

I hereby declare that above written particulars are true to best of my knowledge and belief.
